DETAILED ACTION

Claim Objections

1. Claim 15 is objected to because of the following informalities: Claim 15 recites the limitation "the first actuator" in lines 14 and 15. There is insufficient antecedent basis for this limitation in the claim. It appears the limitation should read --the trigger--. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 15, 16, 18, 19, 22-25 and 27-30 rejected under 35 U.S.C. 102(e) as being anticipated by US 6,524,287 to Cogger.

Cogger shows an ophthalmic dispenser as see in Fig. 1, having a housing 12, a trigger 26 coupled to the housing, a self contained cartridge 10, a vial 46, a pump 48 with a compression zone below the piston of the pump, see Fig. 4, and having an actuated position as seen in Fig. 6 and a rest position as seen in Fig. 9, a nozzle 22, the housing is formed out of two main portions 40 and 42, with a shape substantially the same as that of the pump, the vial, and the nozzle.

Allowable Subject Matter

4. Claims 1-14, 26, 31-35 and 37-39 are allowed.

Art Unit: 3754

5. Claim 17 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claims 15, 16, 18, 19, 22-25 and 27-30 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
